No

Casa Costanza In the countryside between Perugia and Marsciano cute little tower on 2 floors on a wide plot of terraced land, with approved permit to build a modern, ecological, energy-saving house, with a flat garden roof and lots of windows. The project includes an house of about 160 sq m, with a living room, a kitchen, 2-3 bedrooms. A unique chance of building a special house, combining the traditional Umbrian features of the stone-and brick tower with modern materials while glass and steel
